

AWP-204 AZ FAASTeam presents:

2012 Safety Stand Down - KPAN

This year's FAASTeam Safety Stand Down focuses on Loss of Control. Loss of Control In-Flight was the dominant cause of fatal general aviation accidents over the last decade. Loss of Control refers to accidents resulting from situations in which the pilot should have either maintained or regained control of the aircraft, but did not.

Join us in attending this exciting briefing! Using info from 2012 safety stand Down information, we will also discuss Preflight beyond the POH and Risk management! We'll be using a 2 screen presentation given by 2 of our Lead Representatives (approx 3hrs, 9am-12noon).

Directions: Against the Wind FBO / Hangar. RT 87 to Airport RD up the hill to airport. signs will direct to gate down to ramp (by Restaurant) PLEASE DON'T PARK IN RESTAURANT LOT. Once on ramp 'Against the Wind' is on your right & signs will direct you. Flying in park on Echo ramp to keep delta for restaurant folks.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
